

Management B.B.A. Degree

General Management

A Bachelor's Degree in Business Administration with a General Management Concentration from ECU prepares you to be an aggressive, knowledgeable leader in the 21st Century organization. As our world becomes smaller, yet more complex, businesses - national and international, large and small, profit and nonprofit - are searching for individuals who possess a broad range of theoretical and practical skills. A general management degree prepares you to meet the challenges and exciting opportunities facing tomorrow's managers. Entry level managerial positions come with competitive salaries and opportunities for travel, personal and professional growth and development, and rapid career advancement.

In addition to a relevant curriculum and qualified, student-oriented faculty, general management majors have co-operative education opportunities as well as opportunities for membership in professional student organizations, such as SAM (The Society for the Advancement of Management).

Throughout your program, you will find faculty members who are accessible and willing to help, computer labs that are state-of-the-art, and activities such as the College to Careers Conference that are structured to provide additional professional experiences outside of the traditional classroom.
